We take no responsibility for the accuracy or validity of the statements made in this book and give the author's version word for word.

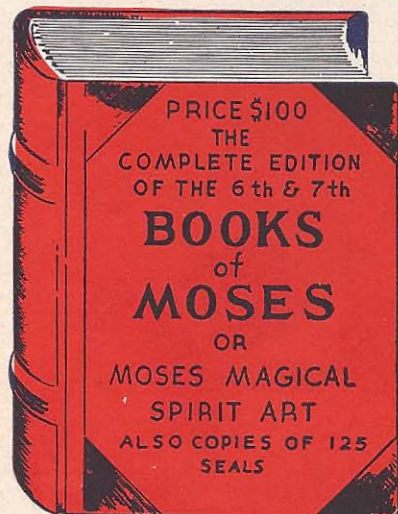

### ASK YOURSELF THESE QUESTIONS:

Did Moses write it? If so, then why isn't it in the Bible? Why is it that thousands of people consult its pages when about to undertake any important step in life—Marriage — Finance — Health?

In our opinion the Seals and symbols are exact copies of those used by the ancient Israelites, Egyptians and Babylonians.

**How to Find Finger Size**

**How to tell your finger size:** Wrap a narrow piece of paper or string around the largest part of your finger. Then cut off so that the ends just meet. Now, put one end of paper or string on figure 0 on the scale at the left. Then read figure at end of string or paper. The number there is the correct ring size. If string stops between two numbers order the largest size.
